## Good/ Best Practice feedback

Nature of works

Plant

Date of good practice note

March 2017

### Smartzone- plant technology

### Description of the good practice

Smartzone can be fitted to plant and allows only authorised persons to start the machine by touching a card onto a reader. The machine cannot be started by keys alone. Information on who and usage of the machine is recorded and can be downloaded.

### What are the benefits?

- Only competent and authorised persons can use the machine
- Reduced risk of machine damage
- Information recorded on usage
- Clear understanding of plant utilisation, potentially reducing overheads
